

Rest Stops on the Information Super Highway

One click links at YouCanWin.Com keyword "fun", then scroll down to **June 2012 Links.**

This is frightening! It works exactly like it says, and is one major reason people in cars can look right at you (when you're on a motorcycle or bicycle)---AND NOT SEE YOU. From a former Naval Aviator. This is a great illustration of what we were taught about scanning outside the cockpit when I went through training back in the '50s.

Would a whale give a small boater a ride? Let's see . . .

This is just plain a whale of a tale . . . (and tail)

Visit the link below, then on the white arrow, to start the show.
