

NEW WAY TO DO CAR JACKINGS (NOT A JOKE)

Heads up everyone! Please keep this circulating...

You walk across the parking lot, unlock your car and get inside. You start the engine and shift into Reverse, and when you look into the rearview mirror to back out of your parking space, you notice a piece of paper stuck to the middle of the rear window. So, you shift into Park, unlock your doors and jump out of your car to remove that paper (or whatever it is) that is obstructing your view. When you reach the back of your car, that is when the car jacker appears out of nowhere, jump into your car and take off. They practically mow you down as they speed off in your car. And guess what, ladies? I bet your purse is still in the car, and if they see your home address and have your keys, your home is now compromised!

BEWARE OF THIS NEW SCHEME THAT IS NOW BEING USED. If you see a piece of paper stuck to your back window, just drive away, remove the paper later and be thankful that you read this e-mail.

I hope you will forward this to friends and family, especially to women. A purse contains all kinds of personal information and identification documents, and you certainly do NOT want this to fall into the wrong hands. Please keep this going.

Thank you,
